Entry-level Cybersecurity Analyst. More than 6 years of experience as a Multidisciplinary Editor. I have collaborated with various brands such as Pubity, ForistaMeri, and CTRN, among others, managing video editing, 2D animation, and graphic design projects. As a developer, I have worked on web development and 3D production for multiple clients. I am currently preparing for the Security+ certification as I transition into the field of cybersecurity, one of my greatest passions.

PROFESSIONAL EXPERIENCE

Freelancer

Multidisciplinary Audiovisual Editor

Remote

October 2021–Present

- Provided technical IT support, optimizing client computers and increasing performance by up to 28%, troubleshooting various issues, and teaching how to configure and optimize programs like OBS, Discord, games, and more.
- Developed and optimized websites for several clients, improving page efficiency and speed by 23%.
- Edited videos and managed social media for clients such as Pubity, ForistaMeri, and smaller creators, enhancing reach and reviving channels, including recovering up to 96% of the previous audience after 7 years of inactivity.
- Implemented graphic design and animation strategies to improve visual engagement, using tools like Adobe Photoshop, After Effects, and Premiere Pro.
- Animated 2D graphics, designed custom logos, and animated these logos for clients like CTRN, enhancing brand presentation.

Krill Audio

Unity 3D Developer (Internship)

Málaga, Spain

March 2021–May 2021

- Developed interactive audio applications using Unity, testing functionalities of the "Krilloud" middleware.
- Documented processes and conducted tests to identify the source of application errors.
- Collaborated with a developer and a team of 3 sound designers in an official Unity competition.
